

Printing Services

The heart of Ai's CORE-4 service is our pressroom, equipped with top-of-the-line presses by Xerox (digital) and Heidelberg (offset). Built on a foundation of the best engineering available, performance and reliability are assured, and benefits are optimized by matching the best technology to each project.

OFFSET PRINTING

Choose the industry standard for process and spot color performance, along with a variety of specialty coatings and finishes.

Our color management technology ensures impressive consistency, even throughout the longest press runs.

The color standards established in the pressroom can be applied and maintained on collateral pieces generated within the CORE-4 environment, giving your brand integrity the respect it deserves.

ADDITIONAL OPTIONS

- Direct Mail management
- Newsprint
- Specialty Packaging
- Wide-Format Printing
- Online Storefront Printing

DIGITAL PRINTING

The clear choice for short-to-medium runs of either single- or multi-color.

All-electronic make-ready gets your order on press fast, and out the door sooner.

Variable data printing, including personalization, numbering and coding, delivers a host of sophisticated options at a cost-effective price point.

Online finishing, such as multiple stitching options and booklet-making, adds to efficiency while keeping costs down.
